

NEW! osConcert BOX OFFICE BLOCKER!

Because of Social Distancing Restrictions I have developed a simple feature to help users.

Some users may have to restrict seats visually in order to allow “safe” distancing between seats so to keep worried patrons fears at ease.

Some of my users are already applying **Social Distancing Rules** and opening events to the public specifically with **osConcert Reserved Seating**.

You might be thinking ... How can I easily block out seats on my osConcert Seat Plans?

With a few adjustments and a few patch files this new feature will allow a **Box Office User/Agent** to login at the **Front End** and simply click the seats that you want blocked and it will apply to all seat plans.

Here’s a brief run through of the scenario where there are 4 active seat plans.

1. Login with your Box Office Account

My DEMONSTRATION is at <https://cartzone.co.uk/demo/osconcert/login.php> **YOU CAN TRY IT!**

It’s a Church Setting and the seats are FREE!

My login is simply:

Login: **boxoffice**

Pass: **boxoffice**
